

Title: Your Voice: Is Technology Dumbing Down Our Kids?

Date: Oct 21, 2009 02:30 PM

URL: <http://pirsa.org/09100075>

Abstract: With studies suggesting the vocabularies of young people today are shrinking and some university professors claiming the essay is hardly worth assigning anymore due to shortened attention spans, some wonder whether technology has done more harm to our kids than good. Our panel of experts will debate the issue.
