

Title: Meet a Scientist - Prof. Bill Unruh

Date: Apr 02, 2009 10:20 AM

URL: <http://pirsa.org/09100210>

Abstract: Quantum gravity, quantum processes in the early universe, evaporation of black holes, limits on the measurements made by real detectors (coupled to the environment), and with regards to mathematical problems, studying techniques rather than finding solutions.

**WHY DOES SCIENCE
MATTER?**
