

Title: My Top 10 Bonkers Things About the Universe

Date: Mar 02, 2011 07:00 PM

URL: <http://pirsa.org/11030124>

Abstract: Did you know you could fit the entire human race in the volume of a sugar cube? Or that, if the Sun were made of bananas, it wouldn't make much difference? Or that 98 per cent of the Universe is invisible? Award-winning science writer Marcus Chown invites you to come along and discover how the Universe we live in is far stranger than anything we could possibly have invented.
