Abstract: Born from a unique, international energy summit of scientists, engineers, entrepreneurs and future leaders from around the world, the Equinox CommuniquÃ© offers visionary proposals for transformative action on reducing the electricity-related emissions that drive climate change.

Through a series of mini presentations, Summit participants discuss the Equinox Summit: Energy 2030 and explain the six main recommendations outlined in the Equinox CommuniquÃ©. These speakers lay the groundwork for a year-long global impact phase, including the release of the detailed and transformative Equinox Blueprint: Energy 2030.

Speakers include: Jatin Nathwani, Jason Blackstock, Jakob Nygard, Yacine Kadi, Lauren Riga, Robin Batterham, ZoÃ« Caron, Maria Skyllas-Kazacos, Marc McArthur, Bill Rosehart, Felipe De Leon, Kerry Cheung, Aaron Leopold, and Cathy Foley
